

## **DUNDEE PRECIOUS METALS ANNOUNCES COMMENCEMENT OF ANNUAL TSUMEB SMELTER SHUTDOWN**

**Toronto, Ontario, March 18, 2015 – Dundee Precious Metals Inc.** (TSX: DPM; DPM.WT.A) (“DPM” or “the Company”) announces that it has decided to advance the timing of the annual maintenance shutdown at its Tsumeb complex copper concentrate smelter in Namibia.

The planned shutdown of the primary smelting furnace, originally scheduled for June 2015, was initiated on March 18, 2015 for the annual replacement of the refractory lining. The trigger to advance the shutdown was operability issues associated with unexpected refractory loss in the upper part of the furnace. The maintenance is expected to be completed within the normal 30 day schedule. Advancing the shutdown is not expected to have an impact on the smelter’s 2015 production guidance or any activities or timing for the acid plant commissioning.

### **About Dundee Precious Metals**

Dundee Precious Metals Inc. is a Canadian based, international gold mining company engaged in the acquisition, exploration, development, mining and processing of precious metals. The Company’s principal operating assets include the Chelopech operation, which produces a copper concentrate containing gold and silver, located east of Sofia, Bulgaria; the Kapan operation, which produces a copper concentrate and a zinc concentrate, both containing gold and silver, located in southern Armenia; and the Tsumeb smelter, a concentrate processing facility located in Namibia. DPM also holds interests in a number of developing gold properties located in Bulgaria, Serbia, and northern Canada, including interests held through its 50.1% owned subsidiary, Avala Resources Ltd., and its 12.1% interest in Sabina Gold & Silver Corp.

### **Cautionary Note Regarding Forward Looking Statements**

This press release contains “forward looking statements” that involve a number of risks and uncertainties. Forward looking statements include, but are not limited to, statements with respect to the future price of gold, copper, zinc and silver, the estimation of mineral reserves and resources, the realization of such mineral estimates, the timing and amount of estimated future production and output, costs of production, capital expenditures, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, currency fluctuations, requirements for additional capital, government regulation of mining operations, environmental risks, reclamation expenses, the potential or anticipated outcome of title disputes or claims and timing and possible outcome of pending litigation. Often, but not always, forward looking statements can be identified by the use of words such as “plans”, “expects”, or “does not expect”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “does not anticipate”, or “believes”, or variations of such words and phrases or that state that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved. Forward looking statements are based on the opinions and estimates of management as of the date such statements are made and they involve known and unknown risks,

uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any other future results, performance or achievements expressed or implied by the forward looking statements. Such factors include, among others: the actual results of current exploration activities; actual results of current reclamation activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of gold, copper, zinc and silver; possible variations in ore grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing or in the completion of development or construction activities, uncertainties inherent with conducting business in foreign jurisdictions where corruption, civil unrest, political instability and uncertainties with the rule of law may impact the Company's activities; fluctuations in metal prices; unanticipated title disputes; claims or litigation; limitation on insurance coverage; as well as those risk factors discussed or referred to in the Company's MD&A under the heading "Risks and Uncertainties" and under the heading "Cautionary Note Regarding Forward Looking Statements" which include further details on material assumptions used to develop such forward looking statements and material risk factors that could cause actual results to differ materially from forward looking statements, and other documents (including without limitation the Company's 2013 AIF) filed from time to time with the securities regulatory authorities in all provinces and territories of Canada and available on SEDAR at [www.sedar.com](http://www.sedar.com). There can be no assurance that forward looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Unless required by securities laws, the Company undertakes no obligation to update forward looking statements if circumstances or management's estimates or opinions should change. Accordingly, readers are cautioned not to place undue reliance on forward looking statements.
